Go-To Process Supplies
for Composites

The view's pretty great from the future.

Take us where we haven't been before.

When you're a dreamer *and* a do-er, working with composites can help you take things beyond the abilities of traditional materials. We'd like to help you go further, faster.

This collection will help you get right to the 3M products meant to support your work.

Now, you can spend your time pushing limits.

Contents:

4 Abrasives

- 4 Discs and Back-up Pads
- 8 Buffing Pads and Adaptor
- 9 Power Tools

10 Adhesives

- 10 Adhesive Sealants, Aerosol and Structural Adhesives

11 Coatings, Fillers and Repair

- 11 Body Fillers
- 12 Repair Adhesives, Glazes and Waxes
- 13 Polishing Compounds and Application Accessories

15 Protective Materials

- 15 Surface Protection and Masking
- 15 Dirt Trap Material
- 15 Protective Films and Sheeting
- 16 Masking Paper

17 Safety

- 17 Coveralls
- 19 Eye Protection
- 21 Head and Face Protection
- 23 Hearing Protection
- 26 Safety Communications
- 27 Respiratory Protection
 - 27 Disposable Respirators
 - 28 Powered and Supplied Air Respirator Systems
 - 30 Reusable Respirators

34 Sprayer Systems

- 34 Adapters, Cups and Collars
- 35 Spray Guns, Tips and Nozzles

36 Tapes

- 36 Adhesive Transfer Tapes
- 36 Masking Tapes
- 37 Polyester Tapes

3M™ Hookit™ Clean Sanding Disc 900DZ

Get a fast cut and long disc life with our 3M™ Hookit™ Clean Sanding Disc 900DZ. Resin-bonded to a light and flexible J-weight cloth backing, 900DZ's premium ceramic grain slices through steel and resists loading on soft woods and metals. An anti-static treatment and our proprietary clean sanding design help to provide exceptional dust management backed up by our clean sanding accessories.

UPC	Packaging	Size	Max RPM	Grade	Case Qty/Units

3M™ Hookit™ Cloth Disc 900DZ

3M™ Hookit™ Cloth Disc 900DZ cuts fast with 3M™ Ceramic Abrasive Grain resin-bonded to a light and flexible J-weight cloth backing. Available in 7 grades, this 5-inch disc features an open-coat design and anti-static properties, making it exceptionally well-suited for materials that tend to load. Our Hookit™ system makes for quick disc change-out and easy re-use.

3M™ Stikit™ Cloth Disc 900DZ

3M™ Stikit™ Cloth Disc 900DZ features high-performing 3M™ Ceramic Abrasive Grain with a static-resistant, open coat on a flexible adhesive backing for exceptional sanding performance on both contoured and flat surfaces. The open coat abrasive provides a more aggressive cut than a comparable closed coat abrasive of the same grade and is well-suited when loading is a problem.

3M™ Cubitron™ II Hookit™ Cloth Disc 947A

3M™ Cubitron™ II Hookit™ Cloth Disc 947A offers revolutionary performance with 3M Precision Shaped Grain on an X-weight polyester-cotton cloth backing. Our high-performing disc contains a grinding aid, making it ideal for medium to high pressure applications on stainless steel and other exotic alloys, along with carbon steel, cobalt chrome, and nickel alloys.

3M™ Hookit™ Clean Sanding Disc 360L

3M™ Hookit™ Clean Sanding Disc 360L offers the latest innovation in dust evacuation. Multi-hole patterns evacuate dust better than 5- or 6-hole products—increasing cut-rate and disc life. The design does not need to align with the disc pad holes, making switching the discs fast, easy, and convenient.

3M™ Trizact™ Hookit™ Clear Coat Sanding Disc 471LA

3M™ Trizact™ Hookit™ Clear Coat Sanding Abrasive Disc 471LA is ideal for spot repairs, including leveling dust nibs and orange peel, before sand scratch removal. Microreplicated 3-D mineral abrasive structures are distributed uniformly across the disc surface and wear evenly for consistent repair and longer disc life. Film-backed discs are part of the 3M™ Perfect-It™ Paint Finishing System.

UPC	Packaging	Size	Grade	Case Qty/Units
0-40-46719-90733-5	25 discs per carton	6 in	P1500	4 Cartons

3M™ Hookit™ Purple Finishing Film Disc 260L

The 3M™ Hookit™ Purple Finishing Film Abrasive Disc 260L features an updated coating that levels surface defects on clear coat and greatly reduces pigtails. Aluminum oxide abrasive cuts fast, lasts a long time, resists loading with or without hole pattern designs and leaves a consistent, easy-to-polish finish. The 3M™ Hookit™ attachment system makes disc change-outs fast and easy.

3M™ Trizact™ Hookit™ Foam Disc

The 3M™ Trizact™ Hookit™ Foam Abrasive Disc removes fine sand scratches on painted surfaces to reduce the amount of time spent compounding. Three-dimensional mineral abrasive structures are distributed uniformly across the disc surface and wear evenly for consistent finishes, longer disc life and reduced material costs. Foam backed discs are part of the 3M™ Perfect-It™ Paint Finishing System.

Back-up Pads

3M™ Stikit™ Low Profile Finishing Disc Pad

The 3M™ Stikit™ Low Profile Finishing Disc Pad is a soft density backup pad in 5- or 6-inch diameters for 5- and 6-inch abrasive discs. The soft density foam provides additional conformability and is ideal for final surface finishing applications following leveling and blending process steps.

UPC	Size	Description	Max RPM	Max OPM	Case Qty/Units

3M™ Hookit™ Clean Sanding Painter's Backup Pad

The 3M™ Hookit™ Clean Sanding Painter's Back-up Pad is excellent for auto body painting jobs such as following contours and sanding close to edges, while maximizing dust extraction. This soft density foam pad features a clean sanding 6-hole pattern for effective dust evacuation with 6-hole discs. 3M™ Hookit™ attachment makes disc change-out fast and easy, maximizing disc life.

UPC	Size	Case Qty/Units
0-00-51131-05858-3	5 in	10 Each
0-00-51131-05551-3	6 in	10 Each

3M™ Hookit™ Soft Interface Pad

This soft density foam 3M™ Hookit™ Soft Interface Pad adds cushion and conformability to 3M Hookit™ back-up pads for auto body sanding applications requiring precision across uneven surfaces. It increases abrasive cut and enables more consistent contact of abrasive discs around surface contours, plus the pad allows closer sanding to edges for smoother, more refined finishes.

UPC	Size	Case Qty/Units
0-00-51131-05777-7	6 in x 1/2 in x 3/4 in	10 Each

Buffing Pads and Adaptor

Buffing Pads

3M™ Perfect-It™ Wool Compound Pad

The 3M™ Perfect-It™ Wool Compound Pad is 3M's highest performing wool compounding pad. This 100% wool product aggressively removes clearcoat scratches with smooth, controlled rotary action. Run the pad on a rotary buffer/polisher and use it in combination with 3M™ Perfect-It™ EX Rubbing Compounds for a complete system that excels at sand scratch removal and correction.

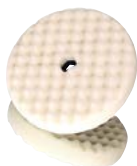

UPC	Size	Color	Case Qty/ Units
0-00-51131-05753-1	9 in	White	6 Each

3M™ Perfect-It™ Wool Polishing Pad

The 3M™ Perfect-It™ Wool Polishing Pad combines fast cut and a fine finish when removing compound swirl marks and fine paint defects. Quick Connect attachment makes for fast, easy centering and allows for quick changeouts. This pad is part of our Perfect-It™ Paint Finishing System, signifying 3M's highest performing double-sided wool-blend pad.

UPC	Size	Color	Case Qty/ Units
0-00-51131-05754-8	9 in	Yellow	6 Each

3M™ Perfect-It™ Foam Compounding Pad

The 3M™ Perfect-It™ Foam Compounding Pads are 3M's highest-performing foam compounding pads for refining sand scratches, slow-speed polishing, denibbing and more. Foam face pattern provides more surface contact, holds compound better and reduces slinging. Doubled-sided pads work with 3M™ Quick Connect Adaptors on rotary polishers; double-sided pads work with the 3M™ Hookit™ system for easy change-outs.

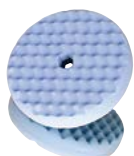

UPC	Size	Color	Case Qty/ Units
0-00-51131-05706-7	8 in	White	6 Each

3M™ Perfect-It™ Foam Polishing Pad

3M™ Perfect-It™ Foam Polishing Pad is a soft foam buffing pad used to buff out fine scratches created from compounding steps. The waffle face gives you greater surface contact area than flat surface pads over contoured surfaces, minimizes heat buildup during buffing and helps eliminate swirl marks. It also helps the pad hold the polish and reduce slinging.

UPC	Size	Color	Case Qty/ Units
0-00-51131-05707-4	8 in	Black	6 Each

3M™ Perfect-It™ Ultrafine Polishing Pad

The 3M™ Perfect-It™ Ultrafine Polishing Pad helps to eliminate swirl marks on painted surfaces, even on difficult dark colored cars. Featuring a unique waffle face design that holds liquid polish, this pad applies polish evenly without releasing excess polish that may cause ripples in the finish.

UPC	Size	Color	Case Qty/ Units
0-00-51131-05708-1	8 in	Blue	6 Each

Adaptor

3M™ Perfect-It™ Quick Connect Adaptor

3M™ Perfect-It™ Quick Connect Adaptor makes it easy to connect or disconnect double-sided buffing pads on rotary polishers. This heavy-duty adaptor saves both time and effort in an automotive body shop by making pad changes so quick and simple. 5/8" thread.

UPC	Size	Case Qty/ Units
0-00-51131-05752-4	5/8 in	10 Each

Power Tools

3M™ Elite Non-Vacuum Random Orbital Sander

The 3M™ Elite Non-Vacuum Random Orbital Sanders combine durable, lightweight construction and operator ergonomics around a powerful precision-balanced motor for professional performance and a swirl-free finish, great for high-production industrial environments where dust extraction is not required. 3M™ Stikit™ disc pad included.

Adhesive Sealants, Aerosol and Structural Adhesives

Adhesive Sealants

3M™ Adhesive Sealant 760 UV

3M™ Adhesive Sealant 760 UV is a single-component, moisture-curing, elastomeric, isocyanate-free adhesive sealant that offers exceptional UV resistance and long term durability when exposed to the elements. This sealant is permanently elastic and is capable of bonding dissimilar materials, offering long-lasting bonds and design flexibility.

Aerosol Adhesives

3M™ Hi-Tack Composite Spray Adhesive 71

3M™ Hi-Tack Composite Spray Adhesive 71 is a high tack spray adhesive ideal for use in a wide variety of composite production applications. Featuring fast tack and high strength with excellent shear holding power, it will bond fiber, fabric, wood and much more. Available in clear, or in green for better visual control, this adhesive meets CARB and OTC VOC requirements.

Structural Adhesives

3M™ Scotch-Weld™ Multi-Material Composite Urethane Adhesive DP6310NS

3M™ Scotch-Weld™ Multi-Material Composite Urethane Adhesive DP6310NS is a multi-purpose urethane adhesive for bonding a variety of composites, plastics, metals and wood. It is a high-strength bonder with some flexibility to accommodate thermal expansion and contraction differences with dissimilar material bonding. It can replace rivets and screws in attaching composites to other substrates, providing a more aesthetically-pleasing, fatigue-resistant bond line. It also bonds well to most metals without requiring priming. Mixed work life at 72°F is approximately 9 minutes.

Body Fillers

3M™ Platinum™ Select Filler

3M™ Platinum™ Select Filler features a super creamy formula that greatly reduces pinholes, and reduces primer usage up to 30% vs. traditional lightweight body fillers. It delivers extreme adhesion to properly prepared steel, galvanized steel, aluminum, e-coat, SMC, FRP and more. Filler is stain free and tack free, ideal for nearly all base coat/clear coat and waterborne paint systems.

UPC	Size	Description	Dry Time	Color	Case Qty/Units

3M™ Quick Grip Filler

3M™ Quick Grip Filler is an extra fast, easily sandable body filler that adheres rapidly to most substrates including galvanized steel, aluminum, e-coat and many more. This creamy, easy-to-spread filler is vacuum processed to reduce pinholes and sands to a fine featheredge without loading abrasives. It cures in 15 minutes at 75°F, and sands to a stain-resistant, tack-free finish.

Waxes

3M™ Perfect-It™ Boat Wax

3M™ Perfect-It™ Boat Wax is the final, brilliant step in achieving a truly professional marine finish. Its blend of pure Brazilian carnauba wax, silicones, polymers and resins brings out an extraordinary gloss and provides durability against the elements. The liquid wax formula is easy to apply and remove even on warm surfaces, and is safe for gelcoat, paint, fiberglass and metal.

Polishing Compounds and Application Accessories

Polishing Compounds

3M™ Perfect-It™ EX Rubbing Compound

3M™ Perfect-It™ EX Rubbing Compound is 3M's best-performing rubbing compound for removing P1200+ sand scratches and surface defects in auto surfaces before polishing. It is formulated to perform in all conditions, including high heat and humidity, without sticking to panels or leaving film residue. It delivers a longer working time, yet still reduces sling for easier cleanup in collision repair.

UPC	Size	Color	Case Qty/ Units
0-00-51131-36060-0	1 qt	White	6 Bottles
0-00-51131-36061-7	1 gal	White	4 Each

3M™ Perfect-It™ EX Machine Polish

3M™ Perfect-It™ EX Machine Polish is the highest-performing machine polish 3M has ever introduced for removing compound swirl marks in collision repair. It stays wet longer, letting you use less polish for the same refined finish. Yet it also holds better on the pad for reduced sling and easier cleanup. You get smooth, polished surfaces without compound swirl marks — faster, and at less cost.

UPC	Size	Color	Case Qty/ Units
0-00-51131-06094-4	1 qt	Black	6 Bottles

3M™ Perfect-It™ EX Ultrafine Machine Polish

3M™ Perfect-It™ EX Ultrafine Machine Polish quickly and completely removes ultrafine swirl marks, even on difficult dark-colored vehicles. It stays wet longer, letting you use less material for a refined finish. Yet it also holds better on the pad for reduced sling and faster cleanup. You get polished surfaces without machine polish swirl marks — all at lower material costs and process times.

Application Accessories

3M™ Disposable Paper Mixing Board

Our 3M™ Disposable Paper Mixing Board is a clean, cost effective solution for auto body professionals who regularly mix filler. Unlike cardboard, these 10 inch x 13 inch paper sheets are non porous and won't react with solvents common in many body fillers. This means no contamination of the filler. When mixing is done, simply tear the sheet off for a fresh mixing surface to save clean up time.

UPC	Packaging	Size	Color	Case Qty/Units

Surface Protection and Masking

Dirt Trap Material

3M™ Dirt Trap Protection Material

3M™ Dirt Trap Nonwoven Protection Material is a specially engineered covering material that protects and brightens paint booth walls and floors. Nonwoven construction traps dust and overspray and its bright white color creates better visibility for technicians. Low tack adhesive backing keeps it secure, smooth and wrinkle free.

3M™ Self-Stick Liquid Protection Fabric

3M™ Self-Stick Liquid Protection Fabric is ideal for a wide range of temporary surface protection in industrial settings. Its liquid-proof layer protects work surfaces from water, oils, solvents and more. Its nonwoven surface traps dirt, dust and debris and prevents them from spreading through the facility. Its adhesive backing keeps it securely in place and removes without residue.

Protective Films and Sheeting

3M™ Moisture Resistant Protective Sheeting

3M™ Moisture Resistant Protective Sheeting is designed to reduce moisture staining in higher-temp drying applications. It provides fast single-person application for reduced overspray-related rework. Film can be used in IR dryers at temps up to 248°F/120°C, helping eliminate dampness. Translucent film is easy to apply, reposition and cut. A light static cling keeps it in place without adhesives.

UPC	Size	Thickness	Color	Case Qty/Units

3M™ White Masking Paper

3M™ White Masking Paper is specially treated to resist heat from paint booths and penetration by paint solvents, urethanes, base coats and clear coats. It is tightly bonded, virtually eliminating lint or fiber contamination that can occur using paper masking. And its thin but conformable construction makes it easy to handle, boosting shop efficiency.

3M™ SecureFit™ Protective Eyewear 600 Series

3M™ SecureFit™ Protective Eyewear 600 Series comes with a variety of features, because having options in protective eyewear can be critical. Workers can choose from several lens coating options, including 3M™ Scotchgard™ Anti-Fog, multiple lens colors, polarization, reader options, and features like a removable foam gasket that combines with Pressure Diffusion Temple (PDT) Technology to help create a secure and comfortable fit.

Eye Protection

Safety Glasses (cont.)

3M™ Solus™ 1000-Series Safety Glasses

3M™ Solus™ 1000 Series protective eyewear features Scotchgard™ Anti-Fog lens coating which helps workers see clearly, longer — providing longer lasting fog resistance than traditional anti-fog coatings.* Removable temples enable the use of the optional strap. Optional foam gasket helps reduce eye exposure. Available in several frame colors and lens tints.

UPC	Product ID	Lens	Coating	Description	Frame	Case Qty/ Units

Hearing Protection

Earmuffs

3M™ PELTOR™ X1 Earmuffs

The X1A is a lightweight, low-profile earmuff designed for protection against low-level industrial noise and other loud sounds. It features an electrically insulated wire headband, often referred to as “dielectric”.

UPC	Product ID	Size	Noise Reduction Rating*	Color	Case Qty/ Units
1-00-93045-93723-0	X1A	One Size Fits Most	22 dB	Black/Green	10 Each

3M™ PELTOR™ X4 Earmuffs

The X4 combines high attenuation with a sleek, low-profile and lightweight design. The innovative foam earcup inserts and spacers help boost attenuation while adding little bulk or weight. This lightweight, lower-profile earmuff helps with compatibility with other personal protective equipment and is designed for protection against moderate-to-high level industrial noise and other loud sounds. It features an electrically insulated wire headband, often referred to as “dielectric”.

UPC	Product ID	Size	Noise Reduction Rating*	Color	Case Qty/ Units
1-00-93045-93726-1	X4A	One Size Fits Most	27 dB	Black/Chartreuse	10 Each

3M™ PELTOR™ X5 Earmuffs

For very high noise situations, no earmuffs in the market today offer a higher Noise Reduction Rating (NRR) than X5. The high attenuation provided by these earmuffs is a result of the combination of specially-formulated foam in the earcups and cushions and the innovative spacer and cup design. They feature an electrically insulated wire headband, often referred to as “dielectric”.

UPC	Product ID	Size	Noise Reduction Rating*	Color	Case Qty/ Units
1-00-93045-93727-8	X5A	One Size Fits Most	31 dB	Black	10 Each

Powered and Supplied Air Parts and Accessories

3M™ Versaflo™ Back Pack BPK-01 and Back Pack Adaptor TR-655, for TR-300+/600/800 PAPR

The 3M™ Versaflo™ Back Pack BPK-01 allows the TR-300+ series PAPR to be worn on the wearer's back rather than on a belt at the waist. Workers may find the PAPR more comfortable or convenient to wear when mounted on the back pack. This configuration may also enable the PAPR to be worn when a worker already wears other equipment around their waist. The TR-655 back pack adapter enables the TR-600 and TR-800 series PAPR to be mounted on the BPK-01 back pack.

Adapters, Cups and Collars

Adapters

3M™ PPS™ Series 2.0 Adapter

3M™ PPS™ Series 2.0 Adapter provides four points of connection from lid-to-gun and converts typical spray guns into ones that work with the 3M™ PPS™ Series 2.0 Spray Cup System. Specifically designed adapters allow painters to use 3M™ PPS™ Series 2.0 Adapter with virtually any spray gun model. To use this adapter, remove the existing spray gun cup. Then simply thread the correct PPS™ Adapter into the spray gun.

Adhesive Transfer Tapes and Masking Tapes

Adhesive Transfer Tapes

Scotch® ATG Adhesive Transfer Tape 969

Scotch® ATG Adhesive Transfer Tape 969 features very high initial adhesion and good shear holding power for bonding a wide variety of materials including plastics, glass, paints and materials with glossy surfaces. Very high initial adhesion creates an immediate, permanent bond that provides good solvent and UV resistance. The adhesive can stick to difficult, varied and textured surfaces, including areas with high humidity and those exposed to sunlight. Reverse wound on 1-inch diameter core for use in Scotch® ATG Applicators. Temperature use range of 250°F (121°C) Short term (Mins, Hrs) and 180°F (82°C) Long term (Days, Weeks).

Masking Tapes

3M™ High Performance Green Masking Tape 401+

3M™ High Performance Green Masking Tape 401+ is designed to deliver sharp paint lines where surface temperatures can reach up to 250°F/121°C for 30 minutes. This green crepe paper tape is ideal for high performance industrial painting — including two-tone applications on trucks, buses, trailers, trains, fire trucks, ambulances, and airplanes — where strong holding performance is required.

3M™ Performance Yellow Masking Tape 301+

3M™ Performance Yellow Masking Tape 301+ is designed to deliver good paint lines where surface temperatures can reach up to 225°F/107°C. This yellow crepe paper tape is ideal for paint masking applications in specialty vehicle, aerospace, automotive and industrial markets where strong holding performance is required.

Polyester Tapes

3M™ Polyester Tape 875

3M™ Polyester Tape 875 has a thin, high strength polyester film that provides a degree of conformability while meeting low caliper requirements. This tape works in demanding conditions and provides satisfactory performance in short term bake cycles at 400°F (204°C), as well as longer term autoclave processes up to 350°F (177°C). It can be used in high temperature applications including temporary holding and masking in composite bonding. When the job is finished, removal is simple, and this tape offers clean release after autoclave processes where tape is used for holding TC wires, vacuum bagging materials, and tooling. The high temperature resistant, non-silicone adhesive also makes it ideal for paint masking in liquid or powder coat processes.

UPC	Packaging	Size	Thickness	Tensile Strength	Color	Case Qty/ Units

3M™ Polyester Tape 876

3M™ Polyester Tape 876 has a thin, high strength polyester film that provides a degree of conformability while meeting low caliper requirements. This tape works in demanding conditions and provides satisfactory performance in short term bake cycles at 400°F (204°C), as well as longer term autoclave processes up to 350°F (177°C). It can be used in high temperature applications including temporary holding and masking in composite bonding. When the job is finished, removal is simple, and this tape offers clean release after autoclave processes where tape is used for holding TC wires, vacuum bagging materials, and tooling. The high temperature resistant, non-silicone adhesive also makes it ideal for paint masking in liquid or powder coat processes. The tape is a thicker version of 3M™ Polyester Tape 875.

Additional Information

⚠ WARNING!

These respirators help reduce exposures to certain airborne particulates. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in injury, illness or death. For correct use, consult supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

⚠ WARNING!

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in hearing protector fit, fitting skill and motivation of the user. If the NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

NOTE! When worn according to the User Instructions, this hearing protector helps reduce exposure to both continuous noises, such as industrial noises and noises from vehicles and aircraft, as well as very loud impulse noises, such as gunfire. It is difficult to predict the required and/or actual hearing protection obtained during exposure to impulse noises. For gunfire, the weapon type, number of rounds fired, proper selection, fit and use of hearing protection, proper care of hearing protection, and other variables will impact performance. If your hearing seems dulled or you hear a ringing or buzzing during or after any noise exposure (including gunfire), or for any other reason you suspect a hearing problem, your hearing may be at risk. To learn more about hearing protection for impulse noise, please visit www.3M.com/hearing.

⚠ WARNING!

These products meet the requirements of certain industrial eyewear standards and with some models certain industrial head protection standards. They do not provide complete head, eye and face protection from severe impact and penetration and are not a substitute for good safety practices and engineering controls. **Misuse may result in serious injury or death.** For correct use, see supervisor and User Instructions, or call 3M PSD Technical Service.

⚠ WARNING!

This product is designed to help protect the wearer's eyes and face from harmful radiation including visible light, ultra-violet radiation (UV), infra-red radiation (IR), sparks and spatter resulting from welding processes. These products must be used only by qualified persons who are properly trained in their use and maintenance. **Misuse may result in permanent eye injury and vision loss.** Always wear ANSI Z87.1 compliant safety spectacles in addition to any welding helmet. For correct use, see supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

⚠ WARNING!

3M™ Hard Hat H-700 Series and 3M™ Hard Hat H-800 Series provide limited protection only. Misuse or failure to follow warnings and User Instructions may result in serious personal injury or death. For proper use see supervisor, User Instructions or call 3M Personal Safety Division (PSD) Technical Service at 800-243-4630 (USA) or 800-267-4414 (Canada).

⚠ WARNING!

These respirators help protect against certain airborne contaminants. **Misuse may result in sickness or death.** For proper use, the wearer must read and understand User Instructions provided as part of the product packaging, see supervisor, or call 3M PSD Technical Service at 1-800-243-4630. Time use limitations may apply.

Important – Before using these respirators, you must determine the following:

1. The type of contaminant(s) for which the respirator is being selected.
2. The concentration level of contaminant(s).
3. Whether the respirator can be properly fitted on the wearer's face. All respirator instructions, warnings and use and time limitations must also be read and understood by the wearer before use.

Before use of these respirators, a written respiratory protection program must be implemented, meeting all the requirements of OSHA 29 CFR 1910.134, including training and fit testing.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
